

Woods Bay Homesites Homeowner's Assoc., Inc.
P.O. Box 8118
Bigfork, MT 59911

June 29, 2006

Dear Mr. Rana,

The Woods Bay Homesites Homeowner's Association supports the Greater Woods Bay Sewer Committee in its efforts to bring about an effective area wide wastewater treatment system. Our members have seen a decline in the quality of our drinking water due to rising levels of nitrates which are showing up in our wells. This is directly linked to the numerous septic systems in the Woods Bay Homesites subdivision. A well engineered wastewater treatment system would ensure the future quality of our drinking water as well as protecting the quality of the water in Flathead Lake. These are both issues of great importance to our members and therefore we are very supportive of the efforts of the Greater Woods Bay Sewer Committee in working to preserve our water quality for a better future in the Woods Bay area.

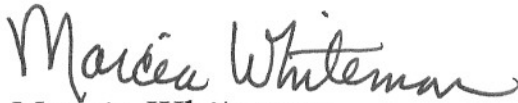

Sincerely,

Frank Brann
