07 June 2006

Dear Paul,

The efforts of the Greater Woods Bay Sewer Committee have been laudable for more than a year. As a sport fisherman and guide, and a businessman with a charter service specifically designed to allow my clients the full range of fishing experiences on Flathead Lake, I can fully appreciate the need to keep the waters in which I conduct business and from which my clients enjoy their experiences, clean and healthy.

Anything that can be done to enhance the quality of the waters of Flathead Lake for this purpose is something that I will support. I realize that there are many other influencers on the quality of the water in Flathead Lake, but I think that taking our septic systems out of the general pool of nutrient adders is a good thing to do to.

I support the efforts of the Greater Woods Bay Sewer Committee and the newly elected Greater Woods Bay and Lake County Sewer District. Let's get it cleaned up and keep it that way!

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Landskron". The signature is fluid and cursive, with a long horizontal stroke at the end.
